

Mini App: Multimedia Authoring 3

ROAD-MAP:

→ Requirements:

- ☒ To Create Fetch Call / Ajax Request
- ☒ To Use Sass and its modules for styling.
- ☒ To Create modules and by clicking on them the user should get data about the module which is created.
- ☒ To Use Components and render those using Vue Js.
- ☒ Data Will be coming out from the JSON File.

[OPTIONAL]

- ☐ Each Car Should have its own components.

→ Steps:

- ☐ Will be getting the png from the Mini.ca Website
- ☐ Will Use class files from the marvel built as the starting point.
- ☐ Will Implement the Json File
- ☐ Creating one component and rendering it out on the page
- ☐ Bring the rest of the components.
- ☒ ~~Cheers, It's done!~~
